## EVERGREENS

People sometimes ask where we get our evergreens from that we are selling. We positively grow every evergreen we are offering for sale. Representatives of some traveling nurseries claim we do not grow them, all I have to say is come and see for yourself.

They are easy to grow, just remember this, the roots must be kept moist from the time they are taken out of the ground till they are again planted. They will not grow if the roots have been exposed for a short time only to the sun and wind. Plant them firm; plant them early; cultivate them often or mulch with sand and see them grow.

We will have all kinds of vines and stock suitable for Hanging Baskets and Window and Porch Boxes.

We will carry a stock second to none in this part of the Northwest. Come and see for yourself.

We make a business of growing potted garden plants. Our potted tomato plants have become a large business in itself. If you have not already tried them, you will want to try them.

We are also going to grow cabbage, tomato and pansy plants in baskets, 12 transplanted plants to the basket which we will offer you at 25c per basket. This makes a nice way to take them home with you and then set them out at your leisure.

## SEED LIST

I am offering the following seeds for sale for the spring trade (1917). While the list is not long I believe it is made up of the best selections of varieties. They are of the 1916 crop and I will furnish you the test and date tested with every package. With our new building we are prepared to do this.

May we not have a trial order from you? We are just beginning in this business and solicit a part of your trade.

These are live seeds. Try them.
